Dear in Christ,

We will never finish thanking God for your kind gesture towards our poor windows and Orphans.

Just to let you know, we have started some part of the project with the amount you sent some of the Orphans.

As the costs of things change day after day, we were able to buy oven for bread at the cost of ₦260, 000.00.

Then generator set at the cost of ₦380, 000.00 instead of ₦3000, 000 .00 with some other expenses for starting bakery management.

This is just part of what we have started.

We will send you later the picture for windows department.

Here are the pictures of part of the project for Orphans hoping to complete it whenever you sent us the remaining money we now plan for the bore - hole overhead storage and distribution tanks.

We have already bought some sewing equipment, which we will send you later.

Thanks so much. We hope at least to see you whenever you visit us at least to see all these things and we also know you more.

God bless. Dio vi benedica.

Sour Dorotea

(Mother General S.P.E.A.)
