Dear Brothers & Sisters

We greatly thank God for your kind gesture towards our widows and Orphans. These people in fact in their Critical moment in life do lose everything even their husbands property. Most of their belongings are taken away from them by their husbands relations. Always they find difficulty of every sort and some weaker ones do break down by one sickness or the other especially high B.P and finally stroke etc.

We thank you especially for the donation of N708, 353. 85 which you sent to us for the project of vocational center for widows and Orphans in our area.

We have started to do something about the project only that we later discovered that some of these people especially the widows are less active and cannot do work like sewing because of their ill health and some cannot work at all and are so dependent and we do go to their families to see and provide them for their needs. Most of the time we do start small poultry farming in their families so that they don't become miserable in life.

As we continue to thank you for the work of Mercy you have so far started we still appeal to you if you can still provide at least any amount of money you can for them because we want to attach this little project at least for those weaker ones or if you can provide even drugs, cloths, foods, even chains, beads etc for producing Chaplets because we teach them how to produce Chaplets. We need car also to run the project. We hope to send to you pictures of the projects hoping you visit us also.
